

MEMORANDUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
PUBLIC HEALTH SERVICE
NATIONAL INSTITUTES OF HEALTH
NATIONAL CANCER INSTITUTE

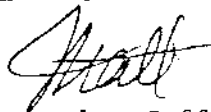

Mr. Richard Spjut, EBL, USDA

DATE: March 10, 1980

Dr. Matthew Suffness, PAPS, NPB

Domestic Recollections

Regarding the domestic recollections you called about I have reviewed the data and B609807, Crossosoma parviflorum, and B614160, Eriastrum wilcoxii, should both be recollected. B628761, Eriastrum eremicum, is considerably less active than E. wilcoxii and should be removed from the Want List. The only collection data I have on these is enclosed.

Matthew Suffness
